Why Sperrin Law

What is a consultant lawyer?

A consultant lawyer is a self-employed legal professional who provides client services under the umbrella of a regulated firm - like Sperrin Law.

Here's what we provide:

- Regulation under the Solicitors Regulation Authority (SRA)
- Full professional indemnity insurance (with no excess payable)
- Access to back-office essentials: compliance, accounts, admin, and IT
- Legal resources and case management systems
- Optional in-house marketing support through our marketing team

We're building something different.

Our consultancy model removes the overheads, admin burdens and rigid frameworks of traditional firms. That means more of the fee goes to you, and more of your time goes to the work that matters.

We don't believe in one-size-fits-all.

Instead, we focus on giving you exactly what you need to practise confidently and independently.

But this isn't just about logistics. At Sperrin Law, we're building a genuinely supportive culture for ambitious lawyers who want to grow something of their own - with access to first-class systems, experienced legal support, and even in-house marketing services to promote your practice.
